

IT'S THE BLADE

A HEAVY-DUTY SCRAPER
SPECIFICALLY DESIGNED FOR
CLEANING OPERATIONS IN THE
HARSH WORLD OF WELDING
AND METAL FABRICATION.

DUALAST
EDGE TECHNOLOGY

NEW CONTOURED BLADES have 3 distinct scraping work surfaces in 1 blade! They're contoured for tube/pipe and the outside radius of square tubing with a 1-1/2" wide flat for standard scraping and a 3/8" wide flat for tight hard to reach areas.

Size and Weight

The 1 lb 2 oz weight of the tool is designed to allow for smooth and efficient operation of the scraping action.

Versatile

The 1/4" shank attachment hole with locking set screw allows you to add a vast assortment of versatile attachments to customize the Scrape-N-Burr for special applications.

Warranty

10 year limited warranty on Scrape-N-Burr handle. See www.scrapenburr.com for details.

Vinyl Hand Grip

Ribbed design for hours of comfortable non-slip use.

Hammer Striking Surface

Strong enough for the especially tough cleaning jobs.

Part #	Description
SNB-T075	Handle with 0.75" O.D. Radius Blade
SNB-T100	Handle with 1.00" O.D. Radius Blade
SNB-T125	Handle with 1.25" O.D. Radius Blade
SNB-T150	Handle with 1.50" O.D. Radius Blade
SNB-T175	Handle with 1.75" O.D. Radius Blade
SNB-T200	Handle with 2.00" O.D. Radius Blade
RNB-T075	Replacement Blade 0.75" O.D. Radius Blade
RNB-T100	Replacement Blade 1.00" O.D. Radius Blade
RNB-T125	Replacement Blade 1.25" O.D. Radius Blade
RNB-T150	Replacement Blade 1.50" O.D. Radius Blade
RNB-T175	Replacement Blade 1.75" O.D. Radius Blade
RNB-T200	Replacement Blade 2.00" O.D. Radius Blade
SNB-HDL	Scrape-N-Burr Handle Only
RPL-GRP	Replacement Hand Grip
PRL-SCR	1/4"-28 Hex Button Head Screw (1)

The specially formulated replaceable steel blade is designed to hold its working edge longer than any other tool available today. Our curved blades provide the ultimate solution for all radiused material cleanup.

- Blades are easily sharpened
- Resistant to removing or gouging parent metal.
